

mains, manholes, inlet structures, pumps, vegetated structures, rock sills, retaining walls and related facilities (collectively, the "Facilities").

B. The Facilities constructed within the easement shall remain the property of Grantee. Grantee shall have the right to inspect, rebuild, remove, repair, improve, and make such changes, alterations, additions to, or extensions of its Facilities within the boundaries of said easement as are consistent with the purpose expressed herein. All construction, maintenance, equipment, and Facilities shall comply with all applicable laws, ordinances, codes, and regulations.

C. Grantee shall have the right, but not responsibility, to trim, cut, and remove trees, shrubbery, or other natural obstructions on, under, or over the easement which interfere with or threaten the efficient and safe operation, construction, or maintenance of the Facilities. All brush, branches, and other debris resulting from Grantee cutting, trimming, or clearing shall be removed from the lands of Grantor and disposed of by Grantee.

D. Grantee and its agents shall have full and free use of the easement for the purposes named, and shall have all rights and privileges reasonably necessary to the utilization of the easement, including a right of ingress to and egress from the easement where least damage to Grantor's property will occur from such access, which right of access shall be exercised only when reasonably necessary, and a limited right use to adjoining land of Grantor where necessary to the use and enjoyment of Grantee's right in the easement, provided, however, that such right to use adjoining lands of Grantor shall be exercised only during periods of actual construction or maintenance of the Facilities, and shall not be construed to allow Grantee to erect any Facilities of a permanent nature on such adjoining land. All damages to any such adjoining lands of Grantor caused by use of the easement by Grantee pursuant to this provision shall be repaired by Grantee at its expense, and restored as nearly as possible to their original condition.
