As per deed Book 21, page 445, 2 October, 1574... the land covered by the water of Darley's Hill Pond along the Neck o Land tract, and was to be covered by water if the water in said Pond were raised two(2) feet higher than its present level.
 There appears to be a discrepancy between the water level as reported in D. B. 21/445 and the water level as shown by Woodson's plat of July, 74. This surveyor has not been able to determine which is correct.

NOTES:
